ABOUT

I am a developer who is experienced in frontend development and uses modern JavaScript frameworks effectively. I have a strong background with **React.js** and **TypeScript,** and I have also worked on **responsive design**, **web performance optimisation** and **API integrations**. Thanks to my fast learning ability and problem solving skills, I am competent in developing user-friendly and high-performance web applications. I have completed successful projects by mastering Agile/Scrum processes in both independent and team work.

EXPERIENCE

Frontend Developer at Agriverts

- I developed the frontend of an artificial intelligence-based plant analysis platform. I created user-friendly and responsive interfaces using **React.js**, **Node.js, HTML, CSS,** and **Material UI.**

- While managing the software team, I ensured efficient project management by applying **Agile** and **Scrum** methods. I organised the projects through **Trello.**

- To optimise the user experience, I created an alternative interface design using **Figma.**

EDUCATION

GEBZE TEKNİK ÜNİVERSİTESİ

Physics

ANADOLU ÜNİVERSİTESİ

Computer Programming

PROJECTS

Barcode Reader project,
I developed a barcode reader application using **React.js**, **Quagga.js**, and **Axios**. I performed barcode scans in the system by pulling barcode data via **RapidAPI.**

PROGRAMMING SKILLS

- **Frontend**: React.js, Vue.js, Angular, Vite.js, HTML, CSS, SCSS, JavaScript, TypeScript

- **Backend**: Node.js

- **Languages**: Python, C#, JavaScript

- **Tools**: Git, Figma, Trello, Miro

Github Finder project,
I created a platform for searching GitHub developer profiles using **React.js**, **SCSS**, **HTML**, and **JavaScript** technologies. The project provided the functionality to aggregate multiple user profiles in one place.
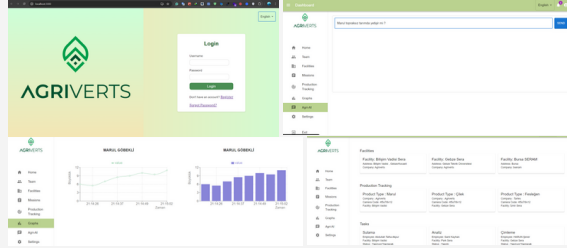

Music Player App,
I designed and developed a responsive music player application compatible with all devices using **HTML**, **CSS**, and **JavaScript.**

Currency Exchange Rate Conversion Application,
I developed an application that performs currency conversion operations using **HTML, CSS,** and **JavaScript** technologies.

Developing the software and design of the interface for the dashboard platform that performs artificial intelligence-based plant analysis,

CERTIFICATES

REACT İLE WEB PROGRAMCILIĞI	Btk Akademi
JAVASCRIPT	bilgeis.net
HTML5 İLE WEB GELİŞTİRME	Btk Akademi
PYTHON PROGRAMLAMA	bilgeis.net
KALFA PROGRAMI YAPISAL ANALİZ VE TASARIM	**Savunma Sanayi Akademisi**
Komple Uygulamalı Web Geliştirme 120 saat	Udemy
